## CNES invests in new Argos constellation...

SERVICES

### BRIGHT FUTURE FOR ARGOS

The future of the Argos system's constellation is secure until at least 2040, with Argos DCS instruments built by CNES scheduled to be on board EUMETSAT's [Metop Second Generation satellites](#) (starting in 2022).

### Argos ANGELS

In addition, CNES is launching an innovative new project, [Argos ANGELS \(Argos NEO Generic Economic Light Satellites\)](#), involving the development of a new miniaturized Argos instrument, Argos NEO, developed by Thales Alenia Space in collaboration with Syrlinks. This instrument will fly on board a miniaturized platform, the first French nanosat, built by Nexeya in collaboration with CNES.

The Argos ANGELS satellite is planned to launch in 2019 and will serve as a prototype for a new Argos constellation, [mixing satellite telemetry and space-borne IoT](#), starting in 2022.

## A successful Argos Asian Wildlife Tracking Workshop

On July 4th-5th, the Argos Asian Wildlife Tracking Community gathered at the National Institute of Biological Resources in Incheon, Korea. More than 80 people were present over two days of scientific presentations on research using the Argos satellite system.

## Argos Manufacturer's Meeting, Woods Hole, MA

The Argos system is preparing for a bright future. A revolution is underway. Enter a new chipset, new applications, a new satellite constellation and potential new pricing. Argos manufacturers are invited to join us in Wood's Hole to learn more about innovation underway @Argos.

When: November 2nd-3rd, 2017

Where: Woods Hole Oceanographic Institution

Who should attend: All manufacturers

## 2017 CALENDAR

**IMPAC-4/** 4-8 September, La Serena – Coquimbo, Chile

**Oceans 2017/** 18-21 septembre, Anchorage, AK

**The Wildlife Society Conference/** 23-27 September, Albuquerque, New Mexico, USA

**Bio-Logging/** 25-29 September, Lake Constance, Germany

**Marine Mammal Conference/** 23-27 October, Halifax, Nova Scotia, Canada

**JCOMM-Technical Conference/** 24-25 October, Bali, Indonesia

**OI CHINA/** 1-3 November, Qingdao, China

**Argos manufacturer's meeting/** 2-3 November, Woods Hole, MA, USA

**Glider School/** 9-11 November, Las Palmas, Spain

**DBCP-JTA/** 14-18 November, Brest, France

**Argo Data Management Team/** 27 November -1 December, Hamburg, Germany
