

## JTA 2015 actual numbers

# Few reminders

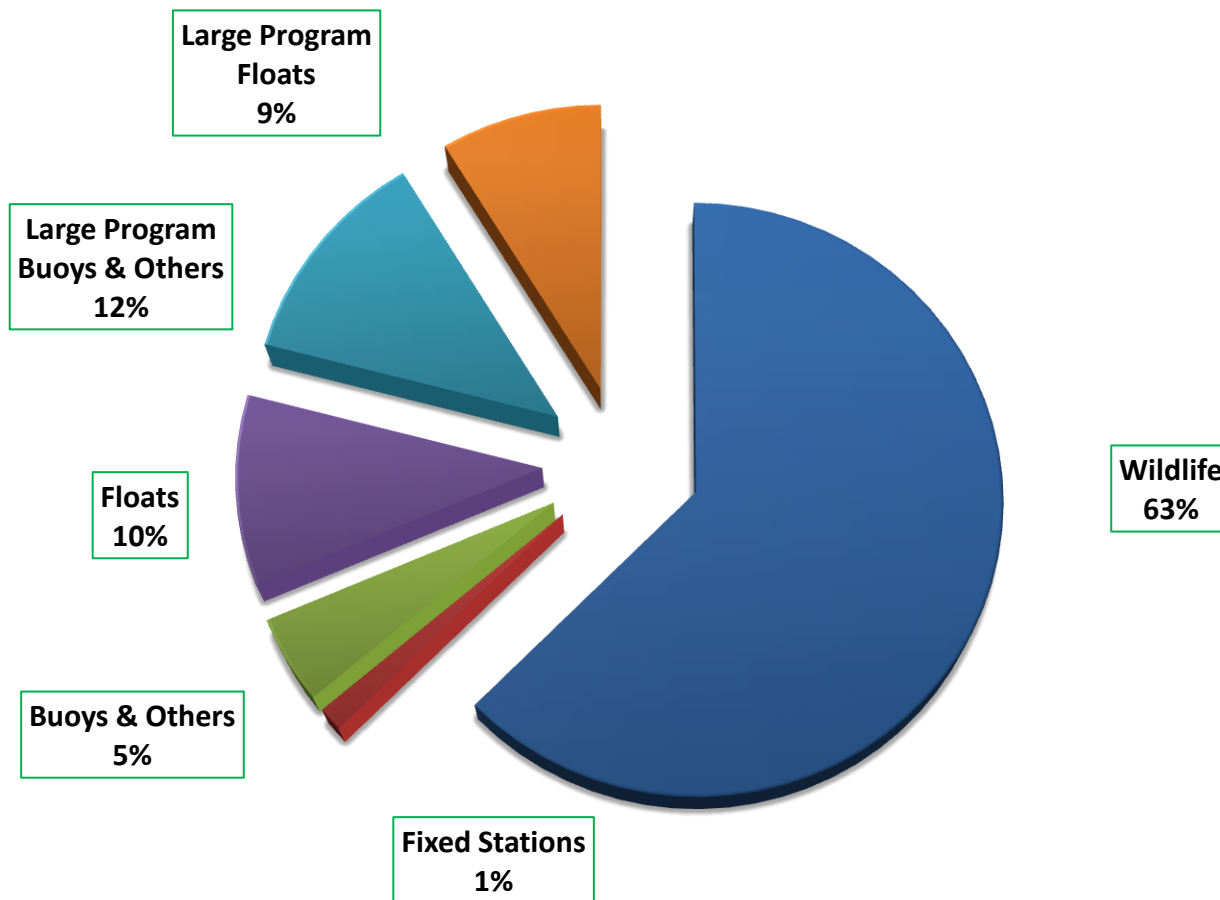

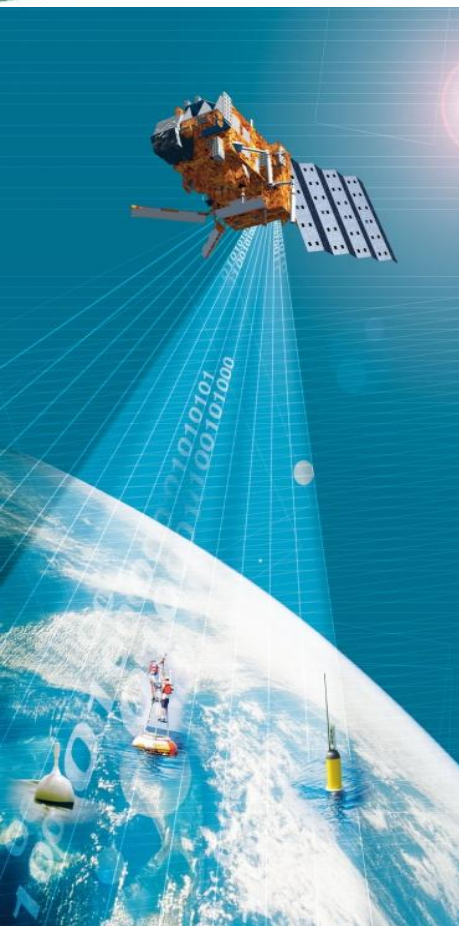

- ❖ **PTT** = Platform Transmitter Terminal
- ❖ **Monthly active PTT** = Platform transmitting, received & processed at least once during the month
- ❖ **PTT-Year** = JTA Unit Account. 1 PTT-year is equal to a PTT transmitting continuously 365 days

# 48 Participating Countries

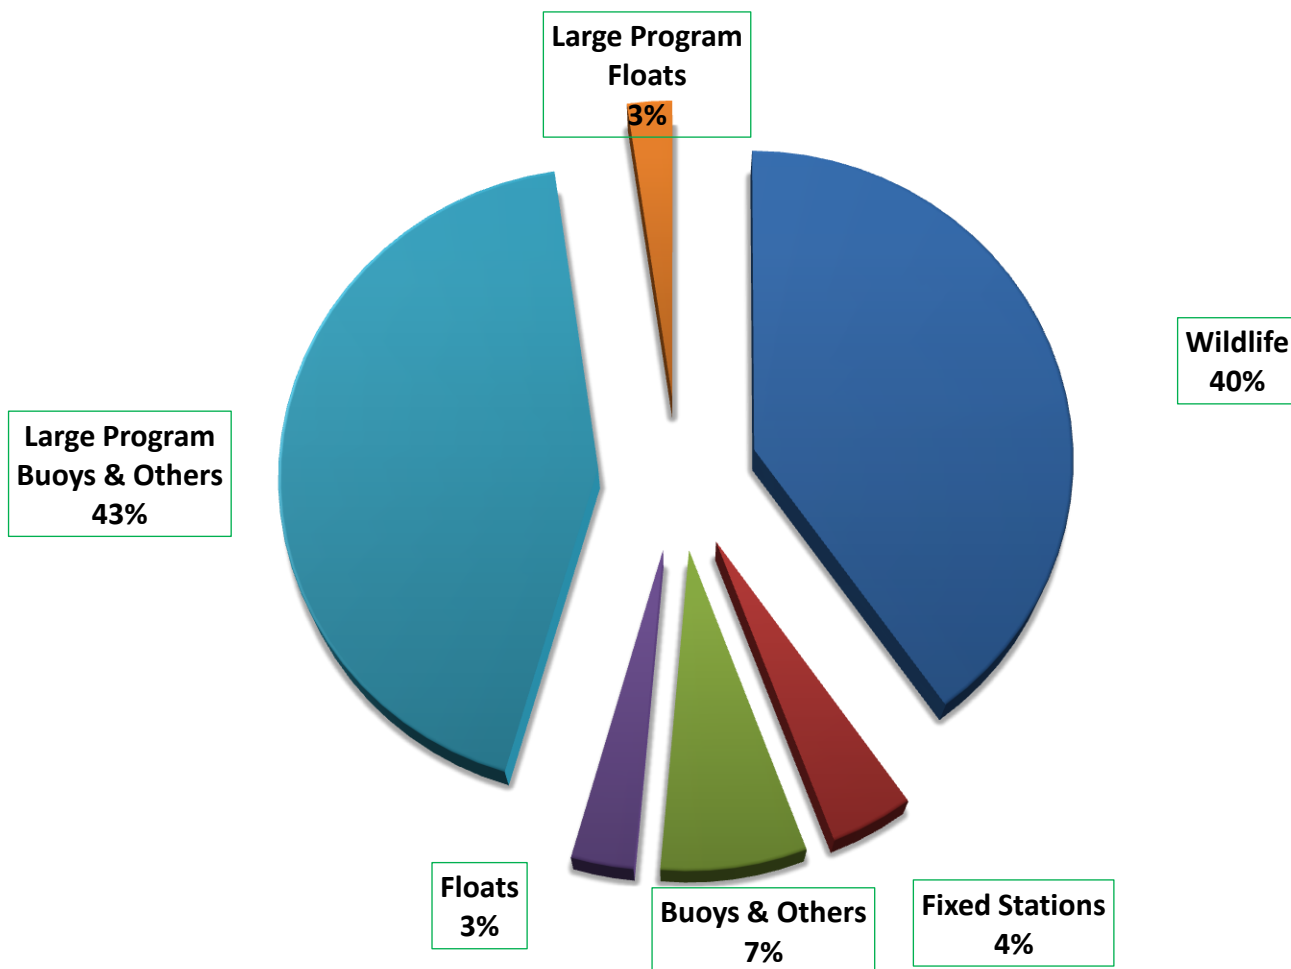

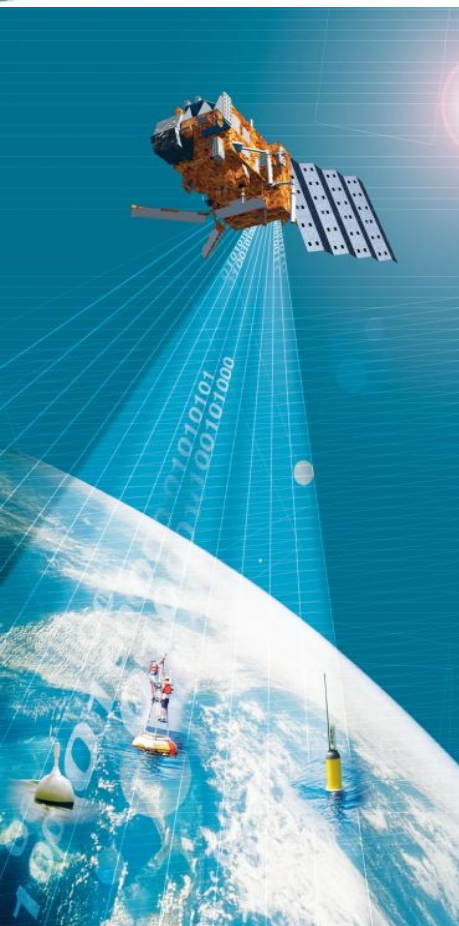

# 2015 active PTTs

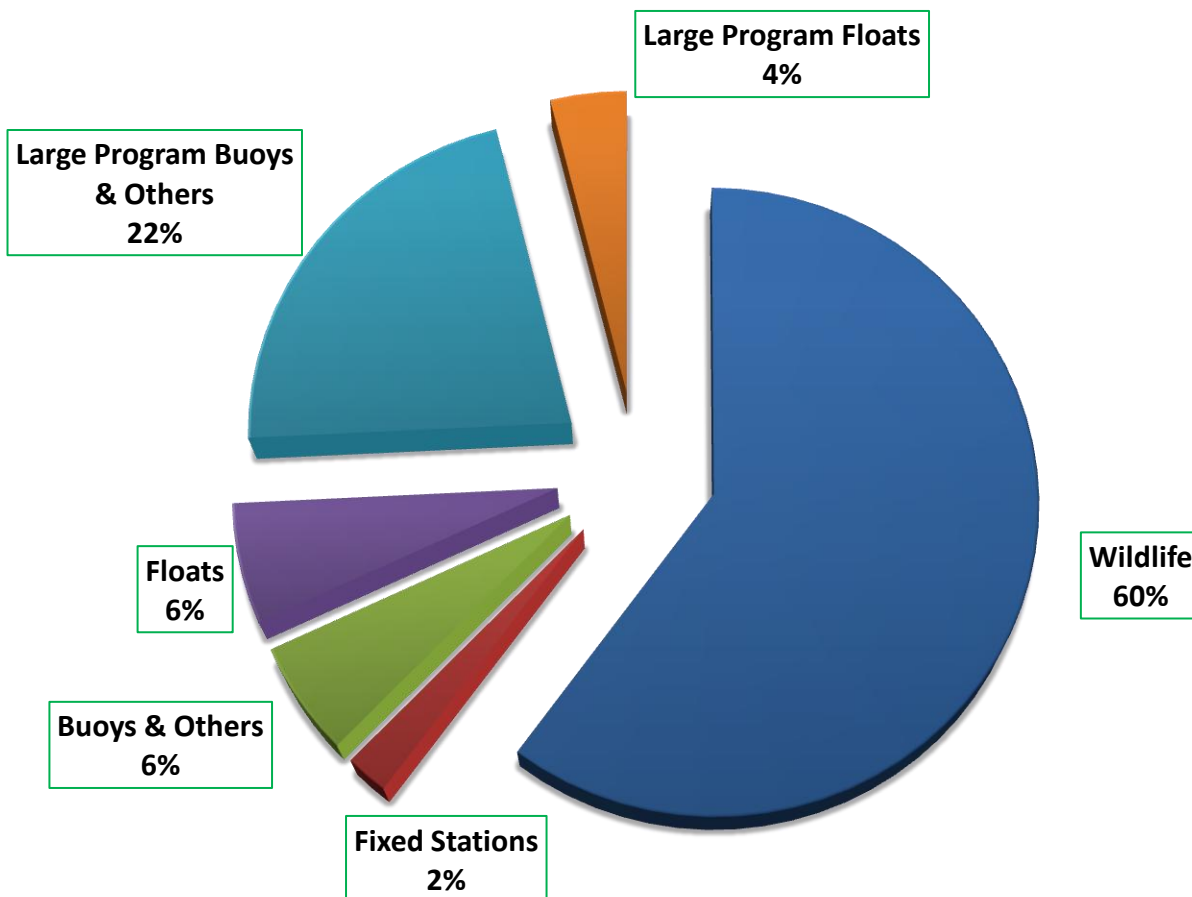

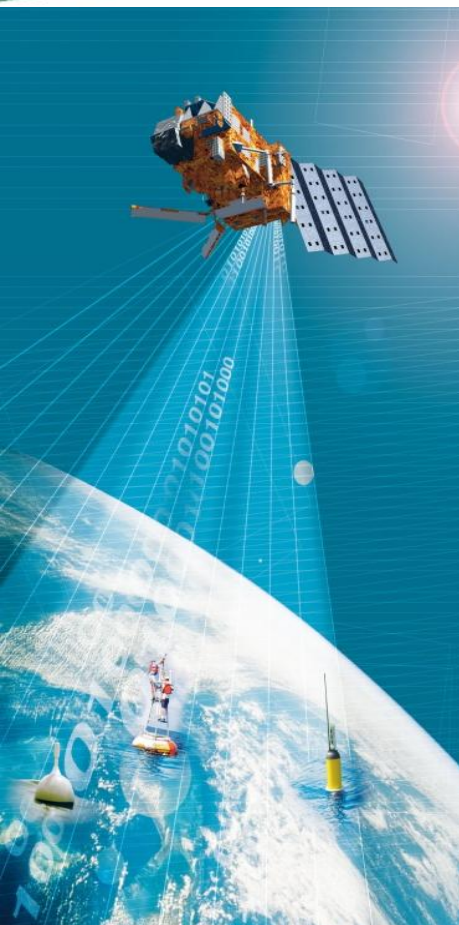

**Total of 11 683 (11 588 in 2014) monthly active PTTs**

# 2015 PTT years

**Total of 2 983 (2 807 in 2014) monthly active PTTs**

# 2015 Total basic incomes

**Total of 7.63 M€ (6.89 M€ in 2014) basic income**

# Conclusions

- *Same number of active PTTs but PTT years +6% = PTT transmits more (especially WLD tags)*
- ➔ *Should we change the WLD active PTTs / PTT years ratio from 15 to 16% in the FYP ?*
- *+11% income due to the reduced discount rate for Large Program (OCO represents 26% of the 2015 incomes compare to only 20% in 2014)*
- *New update on the Large Program PTT year reductions for the next four years.*
